14 October 1986

Dear David,

This is to offer my congratulations and best wishes to you and Debbyd Guth on the publication of your Bibliography on the JFK assassination. It is an awesome volume, certain to be of enormous value to students and researchers and to hold a very high place in the assassination literature.

I must thank you especially for your generous references to my own work, now supplemented by a new Index (see enclosed) which came too late for inclusion in your Bibliography.

If you should have occasion to be in New York, I hope you will call me and come over for a drink.

All the best!

Sylvia Meagher
